

New Car Parking and Access arrangements to Room 3 in Medway Building at Belfast International Airport

In a change to previous arrangements we have decided that it is probably best for everyone if all Consort members and visitors park in main stay car park (beside short stay) from now on for all meetings. This means members can have access to the room without calling me to gain entrance as I know that there can be a hold up as I am the only one who can give access and I am not always around.

On arriving at main stay car park members should make their way through check in and follow signs to arrivals, once in arrivals they should make their way to Tourist Information, once they get there, they should follow signs to Jet centre and they will be in the hall where they previously entered, turn right up stairs to Room 3. There are no security doors to go through when using this route.

On leaving the meeting members need to make their way to the Car Parking Office where the car park staff will validate their ticket for exit.

I hope this will provide a much easier experience for everyone.
